CC-Link IE TSN Remote Station Stepping Motor Driver

CLET-AD1442A1

NPM Nippon Pulse Motor
“Impress, not just satisfy”

**Under
development**

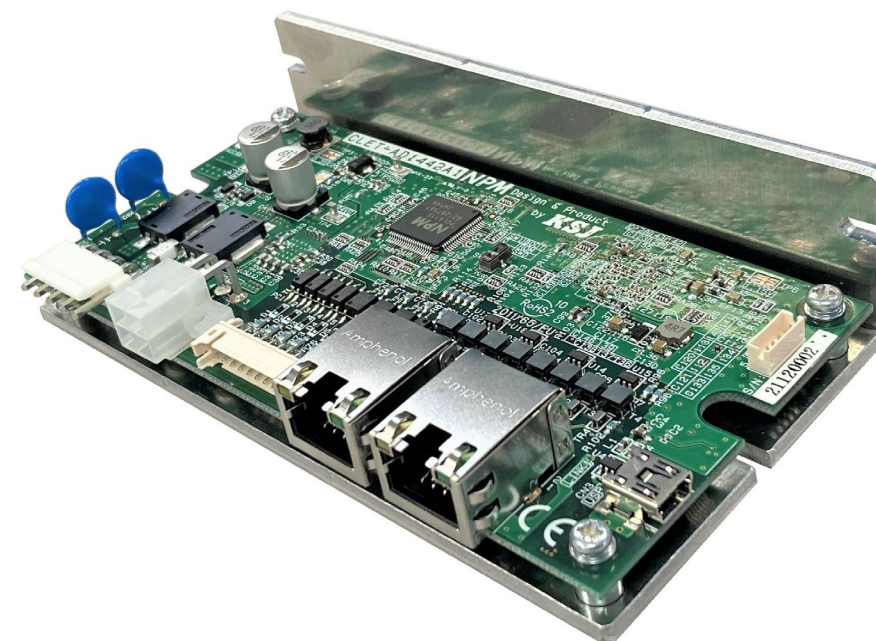

Nippon Pulse Motor is excited to announce the release of our newest stepping motor driver, which has been in great demand in CC-Link IE TSN networking.

The CLET-AD1442A1 is a 2 phase bipolar stepping motor driver integrated with CC-Link IE TSN, a single-axis motion-control driver.

The CLET-AD1442A1 is equipped with the PCL6115, a motion control LSI, from Nippon Pulse Motor.

The CLET-AD1442A1 driver provides excellent performance at a compact lower cost.
